

We are looking to add a full time member to our team. We currently have 20 horses on the property, all in training. This job would include things such as: feeding, turning in/out, cleaning stalls, keeping the barn organized, assisting with vet/farrier appointments, keeping supplies inventoried and stocked, grooming/tacking for training rides, overseeing things at home while we're at shows. The ideal candidate has experience working in a barn setting, is meticulous in their horse care practices, has good communication skills, and is reliable. Ideally looking for someone Sunday-Thursday, hours are somewhat flexible (could stack chores more in the morning or more in the evening). Board for a horse could be negotiated into compensation. No housing is provided at this time. This is an excellent opportunity for someone looking to expand their experience in barn and Sporthorses management, and the position can grow as the program continues to do so. We are located in Paris, about 15 minutes from Hamburg, 10 minutes from Winchester, and less than 10 minutes off of I-64.
