

Equine Analysis Systems is a thoroughbred performance consultancy in Midway, KY that is focused on forward development for both clients and staff. We are seeking to hire a full-time entry-level technician.

**Job Description:**

Technicians are responsible for operating ultrasounds during cardiac evaluations, measuring heart scans, obtaining conformation photographs according to company standard and data entry. The position requires travel to major thoroughbred sales in the US and abroad, as well as domestic and international travel for other client requests. Overall the position is roughly 60% in an office environment and 40% on farms, at sales or racetracks working closely with horses of various ages.

**Job Requirements:**

- >Computer Literacy – Excel, Word, DropBox, PowerPoint
- > Detail Oriented
- >1-3 years Equine Experience – Thoroughbred industry is preferred
- >Ability to integrate well into a team environment
- >Self-Motivated
- >Ability to travel
- >Possession of, or ability to obtain, a valid passport
- >Reliable transportation
- >Ability to quickly adapt to ever evolving environment

This is a salaried, entry-level position. Benefits and paid vacation time are available after probationary period. Business hours are M-F 8:30-4:30, with some weekends required.
