

Foaling Night Watch

- Must have horse experience
- Experience with prior night watch jobs is a plus
- Trailer driving and foaling experience is also a plus but not necessary
- Ability to recognize general signs of sickness or discomfort behavior in horses and signs of labor
- Be able to properly administer medicine and follow directions left by the day shift staff
- Great communication skills are needed for updating the managers regarding health of horses, ongoing treatments, and any emergencies
- Must be comfortable working under emergency situations and act accordingly
- Be reliable and self-sufficient
- Have consistent means of transportation
- Pay based on experience
- Looking to fill the position ASAP
