

Groom, Kentucky Equine Research

Kentucky Equine Research is seeking dedicated and hard-working individuals to perform routine daily care and maintenance of 20-30 research horses at our Versailles, Kentucky research farm.

Duties largely include physically taxing tasks in all types of weather. Primary duties will include cleaning stalls, feeding and grooming horses, and cleaning barns. Duties may also include exercising horses and training horses to research equipment. While the position may occasionally include assisting with research-related tasks, the job focuses mainly on general horse care.

Kentucky Equine Research holds a very high standard of care for our research horses. Successful applicants will be dependable and independent with strong attention to detail. There are two openings for this position.

Send expressions of interest with accompanying resume to:
Ashlee Hauss, ahauss@ker.com.

Kentucky Equine Research is an international equine nutrition, research, and consultation company serving horse owners and the feed industry. The company's goals are to advance the industry's knowledge of equine nutrition and exercise physiology, apply that knowledge to produce healthier, more athletic horses, and support the nutritional care of all horses throughout their life.

Equal Opportunity Employer

Kentucky Equine Research, Inc. provides equal employment opportunities to all employees and applicants for employment and prohibits discrimination and harassment of any type without regard to race, color, religion, age, sex, national origin, disability status, genetics, protected veteran status, sexual orientation, gender identity or expression, or any other characteristic protected by federal, state or local laws. This policy applies to all terms and conditions of employment, including recruiting, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation and training.
